Dear Property Owners/Residents on Sunnyside Avenue:

The Village of Westchester is beginning the Sunnyside Sewer Relocation project. The contractor, Alessio & Sons, will be mobilizing in your neighborhood, including the street in front of your property. The work is scheduled to begin this month and be completed by the end of June.

The first activity you should see is the removal of trees located in the path of the new sewer. The Village has received permission from the Cook County Forest Preserve to remove these trees. The construction will start south in the forest preserve near Brainard Avenue in LaGrange Park and progress north to Sunnyside Avenue. At Sunnyside and 31st Street, it may be necessary to close portions of the street partially or completely to vehicular traffic during construction due to safety concerns. No street closure is expected to last more than a day or two. Street parking may also be restricted. "No Parking" signs will be posted along your street in advance and will be enforced by the Police Department. All other parking restrictions will still be in effect. Access to your driveways should not be affected during the construction operations. These activities and restrictions should not affect any normal holiday activities during Thanksgiving or Christmas.

We do not anticipate the contractor to be on the Sunnyside location until January or February. Construction in your area may not take place in one continuous time period as there are several phases of construction. It also may not extend for the entire period. Except for special circumstances, normal work hours will be between 7:00 a.m. and 3:00 p.m., Monday through Friday.

The sewer relocation may cause temporary inconvenience because of the nature of work. We will appreciate your patience during this period and will attempt to minimize the inconvenience. Our Inspector will be on site during work hours if you have any problems. His name is Boris Vukovic 847.975.6929. After work hours, please call the Police Department to report any problems associated with the construction. You can always leave a message with Public Works Customer Service at (708) 345-0041

Sunnyside Sanitary Sewer Relocation Project.
