My staff and I are monitoring the COVID-19 pandemic 24/7. I am in constant contact with Mayor Gattuso, and Village Manager Paul Nosek. All recommendations and precautions that Illinois Department of Public Health, Center for Disease Control, Cook County Department of Public Health, and the Loyola Emergency Medical System will be strictly adhered to as guidelines for the Fire Departments response plan. The Fire Department is in constant communication with neighboring fire departments to create plans to ensure continuity of operations should any of our personnel require quarantine due to a possible or confirmed exposure. At no time will exposed Fire Department personnel respond to, care for or treat the residents or any other person in need. We will continue to post any informational links on the Village of Westchester website. As always, please do not hesitate to contact me if you have any questions or concerns.
